## **Report of Independent Accountants**

To the Participants and Administrator of the Viacom 401(k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Viacom 401(k) Plan (the "Plan") at December 31, 2001 and 2000, and the changes in net assets available for benefits for the year ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## NOTES TO FINANCIAL STATEMENTS

(Tabular dollars in thousands)

## NOTE 1—PLAN DESCRIPTION

The following is a brief description of the Viacom 401(k) Plan (the "Plan") and is provided for general information only. Participants should refer to the Plan document for more complete information regarding the Plan. The Plan was formerly known as the Viacom Investment Plan (the "VIP") and effective September 1, 2001 was renamed the Viacom 401(k) Plan.

The Plan, sponsored by Viacom Inc. (the "Company"), is a defined contribution plan offered on a voluntary basis to substantially all of the Company's employees.

Eligible full-time employees may become participants in the Plan following the attainment of age 21. Part-time, freelance or project-based employees are eligible to participate in the Plan upon attainment of age 21 and completion of one thousand hours of service within a consecutive twelve-month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and is administered by a retirement committee appointed by the Company's Board of Directors.

Effective September 1, 2001, the net assets of the CBS Employee Investment Fund (the "CBS EIF Plan"), the MTVi Investment Plan (the "MTVi Plan") and the Savings and Investment Plan for Collective Bargaining Employees of Viacom Broadcasting of Missouri, Inc. (the "KMOV Plan") were merged into the Plan.

Effective November 1, 2001, the net assets of the Infinity Broadcasting Corporation Employees' 401(k) Plan (the "Infinity Plan") were merged into the Plan.

**Investment and Participant Accounts** 

Putnam Fiduciary Trust Company (the "Prior Trustee") was the trustee and custodian of the Plan's assets through August 31, 2001. Mellon Bank, N.A. (the "Trustee") became the trustee and custodian as of September 1, 2001. Certain Plan investments are shares of funds managed by the Trustee or Prior Trustee and therefore qualify as party-in-interest transactions. In connection with the change in custodian and plan mergers, participants' accounts in the Plan, CBS EIF, MTVi, Infinity and KMOV Plans were transferred to funds of the Plan considered to be of similar nature and quality as determined by the Company.

Each participant's account is credited with the participant's contributions, the employer matching contributions and the participant's share of the Plan's gains or losses, net of certain plan expenses. Current employer matching contributions are invested entirely in Viacom Inc. Class B Common Stock and are not participant directed (see "Contributions" in this Note 1, Note 4 and Note 8). The participant's contributions and gains or losses resulting therein are participant directed.

Plan participants have the option of investing their contributions or existing account balances among several commingled investment funds, as well as some registered investment companies (mutual funds). The Plan also offers investments in a stable value fund and Viacom stock. Participants may also elect to open a self-directed brokerage account ("SDA"). Participants may not contribute directly to the SDA, but may reallocate balances in other investment funds except the Viacom PRIMCO Stable Value Fund to a SDA of up to 25% of the participant's total account balance (net of loans). The initial reallocation to the SDA may not be less than \$2,500 and subsequent reallocations may not be less than \$1,000.

## NOTE 1—PLAN DESCRIPTION (Continued)

Interest in Master Trust Units

The Company and certain affiliated companies entered into a master trust agreement (the "Master Trust") to invest the assets of the Plan as well as affiliated companies' plans. The Master Trust, when established, consisted of one master trust unit, the Certus Interest Income Fund. The Certus Interest Income Fund master trust unit was a pooled fund managed exclusively for the Company's Master Trust. Effective September 1, 2001, the assets were transferred to the Viacom PRIMCO Stable Value Fund managed by PRIMCO, a division of INVESCO, Inc. During 2001, an additional master trust unit was formed, the Putnam Large Cap Growth Fund. Each of these master trust units is a pooled fund maintained exclusively for the Company's Master Trust. Each participating plan has an undivided interest in the master trust units. Fixed income securities of the CBS EIF Plan previously managed by INVESCO, were transferred into the Viacom PRIMCO Stable Value Fund effective September 1, 2001. The Viacom PRIMCO Stable Value Fund invests primarily in benefit-responsive guaranteed and synthetic guaranteed investment contracts. The fair value of a unit of participation in the Viacom PRIMCO Stable Value Fund is determined by the Trustee based on the contract value of the underlying investments. The Putnam Large Cap Growth Fund is managed by Putnam Advisory Company, LLC and invests primarily in the common stocks of large U.S. corporations. The fair value of a unit of participation in the Putnam Large Cap Growth Fund is determined by the Trustee based on the quoted market value of the underlying securities.

Effective September 1, 2001, the investment balances associated with participants in the Blockbuster Investment Plan (the "BIP") which held Certus Interest Income Fund master trust units, were transferred to the Putnam Stable Value Fund and the BIP ceased to participate in the Master Trust.

Net investment assets and net earnings on the master trust units are allocated daily to the plans investing in the master trust units based on each plan's proportionate interest. Note 7 sets forth the Plan's proportionate interest in the master trust units and certain financial information of the master trust units.

## Contributions

The Plan permits participants to contribute up to 15% of annual compensation on a before-tax, after-tax or combination basis, subject to the Internal Revenue Code ("IRC") limitations set forth below. For the period ending December 31, 2001, the employer's matching contribution for participants who were participants in the Plan or the MTVi Plan was equal to (i) 50% of the first 6% (8% for the MTVi Plan) of annual compensation contributed on a before-tax basis if prior year base pay was \$65,000 or less or (ii) 50% of the first 5% (6% for the MTVi Plan) of annual compensation contributed on a before-tax basis if prior year base pay was greater than \$65,000. For participants who were in the CBS EIF or the Infinity Plan, the employer's matching contribution for the period beginning September 1, 2001 and ending December 31, 2001 was entirely within the discretion of the Company's Board of Directors, was determined on an annual basis, and was set at 80% of the first 5% of contributions. Effective February 1, 2002, the employer's matching contribution is entirely within the discretion of the Company's Board of Directors for all participants in the Plan. Effective February 1, 2002, the employer's matching contribution is set at 50% of the first 5% of before-tax contributions for the following 12 months.

5

Viacom 401(k) Plan

NOTES TO FINANCIAL STATEMENTS (Continued)

## NOTE 1—PLAN DESCRIPTION (Continued)

Matching contributions are made in the form of Viacom Class B Common Stock. During 2001, the matching contributions were restricted funds in that they had to remain invested in the Viacom stock. Effective September 1, 2001, participants who attained age 55 and 10 years of service were permitted to make limited reallocations of their restricted funds. Effective April 1, 2002, all restricted funds for fully vested participants can be transferred to any of the other investments offered under the Plan and new matching contributions, although made in the form of Viacom Class B Common Stock, are not restricted.

The IRC limit of the amount of annual participant contributions that can be made on a before-tax basis was \$10,500 for 2001 and 2000. Total compensation considered under the Plan, based on IRC limits, may not exceed \$170,000 for 2001 and 2000. The IRC also limits annual aggregate participant and employer contributions to the lesser of \$35,000 or 25% of compensation. All contributions made to the Plan on an annual basis may be further limited due to certain non-discrimination tests prescribed by the IRC.

#### Vesting

Participants in the Plan are immediately vested in their own contributions and earnings thereon. Employer matching contributions vest at 20% per year of service, becoming fully vested after five years of service. Transition rules primarily relating to vesting apply to participants of plans that were merged into the Plan. If participants terminate employment prior to being vested in their employer matching contributions and receive a distribution of the vested portion of their account, the non-vested portion of their account is forfeited and may be used to reduce future employer matching contributions and to pay administrative expenses. Employer matching contributions of approximately \$700,500 were forfeited in 2001. The Company utilized approximately \$297,900 to reduce the funding contributions made during 2001. As of December 31, 2001, the Company had approximately \$428,400 available to be used as noted above.

## Loans to Participants

Participants may request a loan for a maximum amount equal to the lesser of 50% of the participant's vested account balance or \$50,000, reduced by the highest outstanding balance of any Plan loan made to the participant during the twelve-month period ending on the day before the loan is made. The minimum loan available to a participant is \$500. The interest rate on participant loans is 1% above the annual prime commercial rate (as published in the Wall Street Journal) on the first day of the calendar month in which the loan is approved, with principal and interest payable not less than quarterly through payroll deductions. Only one loan may be outstanding at any time. Participants may elect repayment periods from twelve to sixty months commencing as soon as administratively possible following the distribution of the loan. The Plan allows participants to elect a repayment term of up to 300 months for loans used for the acquisition of a principal residence. Repayments of loan principal and interest are allocated in accordance with the participants' current investment elections.

The loans outstanding carry interest rates ranging from 6.0% to 12.5% as of December 31, 2001.

## NOTE 1—PLAN DESCRIPTION (Continued)

Distributions and Withdrawals

Earnings on both employee and employer contributions are not subject to income tax until they are distributed or withdrawn from the Plan.

Participants in the Plan, or their beneficiaries, may receive their vested account balances in a lump sum or in installments over a period of up to 20 years, in the event of retirement, termination of employment, disability or death. Participants must receive a required minimum distribution upon attainment of age  $70^{1}/2$  unless they are still employed.

Participants who have been in the Plan or affiliated plans at least five years may elect to withdraw up to 100% of their employer matching contribution account and earnings thereon, while those who have participated less than five years are limited to withdrawing vested employer matching contributions made at least two years prior to the withdrawal, including earnings thereon. In addition, participants in the Plan may receive part or all of their after-tax and rollover contributions. Upon attainment of age 59<sup>1</sup>/<sub>2</sub>, participants may withdraw all or part of their before-tax contributions and earnings thereon. The Plan limits the number of all of the above withdrawal elections in each calendar year.

A participant may obtain a financial hardship withdrawal of the vested portion of employer matching contributions and before-tax contributions provided that the requirements for hardship are met and only to the extent required to relieve such financial hardship. There is no restriction on the number of hardship withdrawals permitted.

# Termination Priorities

Although the Company anticipates that the Plan will continue indefinitely, it reserves the right by action of its board of directors to amend or terminate the Plan provided that such action does not retroactively reduce earned participant benefits.

In the event of Plan termination, participants become fully vested. Upon termination, the Plan provides that the net assets of the Plan would be distributed to participants based on their respective account balances.

#### Plan Expenses

The fees for investment of Plan assets are charged to the Plan's investment funds. Prior to September 1, 2001, the Company paid for expenses incurred in connection with the administration of the Plan, to the extent not covered by forfeitures. Effective September 1, 2001, the administrative expenses are paid by the Plan from the Plan's investment funds. Certain other administrative expenses, such as legal and accounting fees, may be paid by the Plan forfeitures as described above.

#### NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accrual method of accounting is used for financial statement presentation.

Investment Valuation and Income Recognition

Short-term money market obligations are carried at cost which approximates fair value due to the short-term maturity of these investments.

Viacom Inc. Class A Common Stock and Class B Common Stock are reported at fair value based on the quoted market price of the stock on the New York Stock Exchange. Investments with registered investment companies, commingled trust funds, common collective trusts and the Putnam Large Cap Growth Fund are reported at fair value based upon the market value of the underlying securities as priced by national security exchanges. Guaranteed investment income contracts, separate accounts and synthetic investment contracts held by the Viacom PRIMCO Stable Value Fund are fully benefit responsive and are therefore reported at contract value, which represents the aggregate amount of deposits thereto, plus interest at the contract rate, less withdrawals.

7

## Viacom 401(k) Plan

#### NOTES TO FINANCIAL STATEMENTS (Continued)

(Tabular dollars in thousands)

## NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Participant loans are recorded at cost, which approximates fair value. Cash and cash equivalents are valued at cost plus accrued interest, which approximates market value. Interest income is accrued as earned and dividend income is recorded on the ex-dividend date.

Security Transactions

Purchases and sales of securities are recorded on the trade date. The historical average cost basis is used to determine gains or losses on security dispositions.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions, such as those regarding fair value, that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the related statement of changes in net assets available for benefits.

#### NOTE 6—INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated January 22, 1998, that the Plan is exempt from federal income taxes under the provisions of Section 501(a) of the IRC. The Plan has been amended since receipt of the determination letter. However, the Company and the Company's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. In February 2002 an application was submitted to the IRS for an updated determination letter, which is still pending.

#### NOTE 7—INVESTMENT IN MASTER TRUST

The value of the Plan's interest in the total investments of the Viacom PRIMCO Stable Value Fund master trust unit was 99.97% at December 31, 2001 and the allocated share of investment income, including the Certus Interest Income Fund master trust unit was 98.74% for 2001. The value of the Plan's interest in the Certus Interest Income Fund master trust unit was 93.80% at December 31, 2000, and the allocated share of investment income was 94.00% in 2000.

The value of the Plan's interest in the total investments of the Putnam Large Cap Growth Fund master trust unit was 99.81% at December 31, 2001 and the allocated share of investment income was 98.69% for 2001. See Note 1 for a description of the Master Trust and master trust units.

The following table presents the investments of the master trust units:

	At December 31,			1,

## NOTE 7—INVESTMENT IN MASTER TRUST (Continued)

Investment income of the master trust units is as follows:

Year Ended December 31, 2001	
	6.872

Synthetic investment contracts \$ 6,87

Guaranteed investment contracts	2,468
Separate accounts	2,564
Net appreciation of Putnam Large Cap Growth Fund	1,338
Dividends	552
Interest Income	304
Investment manager fees	(421)
Net Investment Income	\$ 13,677

The guaranteed investment contracts and synthetic investment contracts are fully benefit-responsive and are valued at contract value. The Company does not expect any employer initiated events that may cause premature liquidation of a contract at market value. At December 31, 2001 and 2000, investments in the master trust units at contract value of \$522,870,282 and \$54,973,471, respectively had fair values in the aggregate of \$534,898,721 and \$55,572,187, respectively. The average yield and crediting interest rates were approximately 6% in 2001 and 7% for 2000.

## NOTE 8—SUBSEQUENT EVENTS

Effective April 1, 2002, the net assets of the Viacom Outdoor Inc. 401(k) Plan (formerly known as Transportation Displays Incorporated Savings Investment Plan) and the Viacom Outdoor Group Inc. Savings Investment Plan (formerly known as Outdoor Systems Inc. 401(k) Plan) were merged into the Plan.

In addition, the Plan was amended to permit participants who are fully vested in their Plan account balances to reallocate the portion of their account invested in restricted funds to any of the Plan's available investment funds. Prior to this change only Participants who attained age 55 with 10 years of service could reallocate the restricted funds, and only to a limited extent.

On June 25, 2002 the Company decided to merge the net assets of the United Paramount Network 401(k) Plan into the Plan effective July 1, 2002.
